Reading Passage Keys

Passage 1 (Forests and Soil) — Q33–38. Q33 b (roots hold the soil together, stated in sentence 2); Q34 a (leaves break the force of falling rain); Q35 a (without trees, rain washes the loose soil into rivers); Q36 b (the passage explains how forests protect soil and how cutting them harms it); Q37 a (communities plant new trees and control cutting); Q38 a (bare means without plants or cover).

Passage 2 (Floods) — Q39–44. Q39 c (heavy and continuous rain is named the most common cause); Q40 b (the definition of a flood, sentence 1); Q41 c (floodwater often carries diseases); Q42 b (the last sentence lists keeping documents high, preparing bags, and following warnings); Q43 d (absorb = soak up); Q44 b (floods can destroy homes and crops; the other statements contradict the passage).

Passage 3 (Earthquakes) — Q45–50. Q45 a (caused by the movement of rocks deep inside the Earth); Q46 c (the most powerful shaking lasts only seconds); Q47 a (drop, take cover, hold on — exactly what the experts advise); Q48 b (after shaking, move to an open area away from walls and power lines); Q49 b (knock down = destroy); Q50 c (the passage gives safety advice during an earthquake).
