

**Answers**

| Q  | Ans | Q  | Ans | Q  | Ans |
|----|-----|----|-----|----|-----|
| 1  | a   | 2  | b   | 3  | c   |
| 4  | d   | 5  | a   | 6  | b   |
| 7  | c   | 8  | d   | 9  | a   |
| 10 | b   | 11 | c   | 12 | d   |
| 13 | a   | 14 | b   | 15 | c   |
| 16 | d   | 17 | a   | 18 | b   |
| 19 | c   | 20 | d   | 21 | a   |
| 22 | b   | 23 | c   | 24 | d   |
| 25 | a   | 26 | b   | 27 | c   |
| 28 | d   | 29 | a   | 30 | b   |
| 31 | c   | 32 | d   | 33 | a   |
| 34 | b   | 35 | c   | 36 | d   |
| 37 | a   | 38 | b   | 39 | c   |
| 40 | d   | 41 | a   | 42 | b   |
| 43 | c   | 44 | d   | 45 | a   |
| 46 | b   | 47 | c   | 48 | d   |
| 49 | a   | 50 | b   | 51 | c   |
| 52 | d   | 53 | a   | 54 | b   |
| 55 | c   | 56 | d   | 57 | a   |
| 58 | b   | 59 | c   | 60 | d   |

**Selected working**

(7) Stating that +251... is a person's phone number puts the data into context, so the data becomes information.

(9) Aggregating the daily sales data by weeks reveals whether sales are increasing or decreasing, which turns data into information.

(17) The textbook places wisdom at the top of the hierarchy as the highest level of human understanding.

(18) In the DIKW pyramid, data is at the bottom and wisdom at the top, and the value increases as one moves up.

(24) The five components of an information system are hardware, software, data/information, people, and procedure.

(37-39) G2C links a government to its citizens, G2B to businesses, and G2G is used between government agencies and departments.

(40) E-banking transfers funds through exchange of electronic signals rather than through cash, checks, or other paper documents.

(45) E-learning that is delivered over the Internet is referred to as online learning.

(49) E-commerce is the buying and selling of goods and services over the Internet.

(54) Telemedicine lets a caregiver and a patient be in separate physical locations during care.

**(58-60)** A teleconference connects people separated by distance using electronic communication; the audio conference is voice-only, while the video conference combines voice and video images.
